These are codes that you can use to get free cosmetic items for your avatar! You can equip them with your character in Roblox's Avatar area. You will keep these items permanently, so don't worry about their lives. However, be sure to exchange the codes as soon as possible, as they will expire after a while. Unfortunately, we don't know when new codes will arrive in Roblox, so these are as much a surprise to you as they are to me! If there is a new code, we will usually have it listed at the top of the page, so this is the first thing you see. How do you use promo codes? Buying back promo codes in Roblox is a simple process, but they do a pretty good job of hiding it! All you'll have to do is log in to your Roblox account and visit the following website: Once you're there, just copy one of the codes below and paste it into the text field! Here's how it should look: Example of redemption code If you did it right, you'll see a green thumbs up icon and text, Successfully redeemed promo code! When will the new promo codes be published? We very rarely know when a new code will be published. It's pretty much just random, and they're usually released by Roblox's social media. If I were to put a figure on the number we get, it's usually a code per couple of months. There have been various events and milestones that have brought more codes, it's pretty rare. Can you get Robux from the promo codes? No, you can't get Robux with promo codes like these. This is usually only for avatar items and nothing more. There is basically no real legitimate way to get Robux for free unless it's through a gift or contest. The majority of people or sites claiming they have Robux Robux Gift are scams and seek to extract some kind of information from you to make it useful. It's either just getting you to visit their site or video for views/advertising revenue. Some of them are also looking to get your Roblox account or personal data. Don't trust third-party websites that claim they can get you Free Robux. How long do promo codes last? It depends on the code, sometimes they will last a while. You will notice that there are a couple of codes on the list that have been around what seems to be forever. Most of the time though, I bet they remain available for about 30 days or more. Be sure to swap any new code you see right away, because you won't want to miss it! Roblox Creator Challenges Do you want to win new free cosmetics without having to do much other than answer some questions? Well, that's where Roblox Creator Challenges comes in! You'll just need to start each of the following games, wade your way through a few questions to complete the challenges, and then you'll get some pretty sweet rewards! It's important to make sure you only play the challenges that are created by Roblox Creator Challenge because there are a lot of fakes out there trying to waste your time! These are official challenges that are sure to earn you loot once you've completed them. These just test your knowledge of basic programming in Roblox. You can pretty much groped through the quiz, even if you've never coded before in your life. You are not penalized for the wrong answers! However, if you want to go in prepared, be sure to run through a tutorial before attempting the challenges.
